My Future

You will be creating an interactive image to demonstrate what your plans are after high school. Are you planning to go to college, the military, or vocational school? What do you want to be when you grow up?

Objective: Create an interactive image using text, images, graphics, and animation that highlights what you want to be in the future. Demonstrate an understanding of finding credible sites to use for information.

Find one image that represents your future plans and make it interactive by including the following:

*A link detailing the average income for the career
*A video demonstrating the career choice (keep it short)
*An additional image representing the career choice
*A link describing the education you need after high school
*An additional link with information of your choice

You will present your interactive image to the class, so make sure you are able to speak to your facts/information found during your research.

My Future Rubric

Grade _____/25

Digital Tools Demonstration

Item Description	**Excellent**	**Good**	**Fair**	**Poor**
Tags/links	5 – **All** of the tags/links are present (income, video, image, education and other)	4 – **Most** of the tags/links are present (income, video, image, education and other)	3 – **Some** of the tags/links are present (income, video, image, education and other)	2 – **None** of the tags/links are present (income, video, image, education and other)
Background image	5 – The background image is an **exceptional** representation of the future career	4 – The background image is a **good** representation of the future career	3 – The background image may or may not be a representation of the future career	2 – The background image is not a representation of the future career

Careers Demonstration

Career identified	5 – The career is **very** easily identified in the interactive image	4 – The career is easily identified in the interactive image	3 – The career may or may not be identified in the interactive image	2 – The career is not identified in the interactive image
Credible information	5 – The information provided is from credible, reliable, and informational sites	4 – The information provided is from credible, reliable, or informational sites	3 – The information provided may or may not be from credible, reliable, and informational sites	2 – The information provided is not from credible, reliable, and informational sites
